RESOLUTION.

THE Secretary of State for India has brought to the notice of the Government of India that it not infrequently happens that natives of India, students on others, who have proceeded to England, desire to obtain passports to enable them to travel to foreign countries in which the possession of a passport is necessary or desirable, and that difficulty often arises from want of evidence to show that the applicant is a British subject, and therefore entitled to a passport. Appeals for assistance are also frequently addressed to His Lordship by destitute Indians who desire to return to their country and by students who, owing to embarrassed

circumstances, are unable to complete their course of education.

2. In order to enable the Secretary of State to deal with uch cases satisfactorily, the Governor-General in Council has decided that it is necessary to and others visiting England the desirability of providing thems from India, with an authoritative certificate of identity, in the form appended to this Resolution, signed by the head of the district (in a Presidency "lown, the Commissioner of Police) in the case of residents of British India and by the Political Officer in that of residents of Native States. For a student the certificate should be signed by the head of his last school or college and countersigned by the District Officer in a Presidency Town, the Commissioner of Police) or Political Officer, as the case may be.

ON UNAUTHORISED IRRIGATION.

24. For the unauthorised use of canal water a rate of Rs. 5 per acre shall be charged; this rate may, however, be reduced at the discretion of the Divisional Canal Officer.

25. When it comes to the knowledge of the Subdivisional Canal Officer that canal water has been taken in an unauthorised manner, he shall hold a local investigation, and, if he considers that water has been taken in this way, he shall serve a notice on the persons liable to be assessed, fixing a date for hearing objections. Any objections made shall be taken down and the whole record forwarded to the Divisional Canal Officer for disposal.

26. The Divisional Canal Officer after hearing any objection that may be raised shall, if he is of opinion that the area should be assessed, fix the rates allowed under rule 24 and dispose of the case within one month of the receipt of the record from the Subdivisional Canal Officer. Water-rates shall not be charged where the unauthorised irrigation has occurred through the act, neglect or default of a Canal Officer or subordinate.

27. Applications may be subsequently received from villages in which unauthorised irrigation has been detected, and these villages may be granted leases; but in such cases the persons assessed under rule 24 shall also pay the water-rates due in respect of the lease subsequently granted, provided that the total of these two rates shall not exceed the maximum rate chargeable under rule 24. In such cases of double assessment the Divisional Canal Officer may remit, in whole or in part, the rates assessed under rule 24.

ON PENALTIES AND CANCELLING OF LEASES.

28. Should it be proved, after due enquiry, that the supply of water given to any leased area is habitually wasted or used for the irrigation of lands not under lease, it shall be competent for the Superintending Canal Officer to direct that the lease shall be cancelled with effect from the 1st June next following.

29. The Superintending Caual Officer may, with the concurrence of the Collector, direct the Divisional Canal Officer to —

(I) Cease to issue permits for the irrigation of lands in villages where there have been constant difficulties in realising water-rates until all the arrears of water-rates due are paid up; and also if specially so ordered, until half the amount due under new applications is paid in advance. An order under this rule shall be in force for the time stated therein, which shall not exceed three years.

(II) Cancel any long lease if on the 1st June water-rates to the extent of half the demand for one year are in arrears.

(III) Cancel any lease of which the lands cannot be irrigated from the canal except by passing water over an unleased area.

MISCELLANBOUS.

31. Unless specially exempted by the Lieutenant-Governor from the operations of these rules, no officer employed on the canal shall have any interest in the distribution of water from it, or purchase or bid for any Government property sold thereon, either in his own name or in the name of another, or jointly or in shares with others.

D. B. Horn, Secy. to the Gost. of Bengal.

GENERAL CONDITIONS.

1. The revenue administration of the Dhaka Canal is vested in the Superintending Engineer of the Gandak Circle. The Divisional Canal Officer is responsible for maintaining the canal in an efficient condition, for the distribution of water to the lessees, and for the closing of the outlets in rotation when required; he is further responsible for the assessment of water-rates.

The Collector of the district is responsible for the collection of water-rates.

3. Except as provided in the Act and in these rules, no appeal shall lie from any order passed by a Canal Officer, but the Subdivisional Canal Officer shall modify any order passed by him in accordance with the order of the Divisional Canal Officer, and the Subdivisional Canal Officer or Divisional Canal Officer shall modify any order passed by him in accordance with the orders of the Superintending Canal Officer, who shall exercise a general control over the proceedings of all Canal Officers.

opinion in writing, which shall form part of the record of the proceedings of the case.

ON BLOCKS.

The Divisional Canal Officer shall map out the irrigable area into blocks demarcated by suitable boundaries, and in order to equalise the area to be dealt with each year, shall determine the date of expiry of the leases in each block, so that as far as practicable onefifth of the total area usually irrigated may fall out of lease every year.

Each block, determined as above, shall be numbered and marked on the maps to be maintained by the Divisional Canal Officer, and shall also be recorded with its irrigable area

in the registers to be kept by him.

- Villages which apply for a lease less than five years in advance of the date of expiry fixed under rule 5 will only be granted leases for the remaining years of the term fixed for the block in which they are situated, so that all the leases within the same block may expire on the same date. These leases will be granted under the same conditions as 5-year leases.

The Divisional Canal Officer shall issue permits for long leases to the lessees through

the Subdivisional Capal Officer.

When water is urgently required, the Subdivisional Canal Officer may grant a season lease which will be cancelled if the long lease is subsequently concluded. The Subdivisional

Canal Officer may also issue season leases under rule 13 (III and IV).

When a lease is granted an agreement shall be taken in forms given in Appendices I and III and a "permit" shall be given to the lessee or lessees in forms given in Appendices

II and IV.

11. Water for filling tanks may be supplied when available for cash paid in advance; the water taken into the tanks may be used for irrigation or any other purpose (Forms of application and permit are given in Appendices V and VI).

12. Water may be supplied by measurement through a permanent outlet, when the working level of the water in the distributary can be kept fairly constant.

The Divisional Canal Officer may disallow this free irrigation and recover the rates, in whole or in part, from the jait raiyat or gumashta or other representative, if the assistance specified in rule 22 has not been efficiently rendered to the satisfaction of the local officers. The reasons for such disallowance are to be recorded in the list of cultivators' representatives maintained by the Subdivisional Canal Officer.

case of more than one Examiner under each heading the members belonging to this section are

to set the papers in that section in consultation with each other.

After setting, the papers should be laid before the whole Examining Board with a view to obtain the advice of the mercantile members of the Board on the suitability of the questions.

Regulations in connection with the examination.

- (a) No marks should be allotted for any subject or paper. It is intended that Examiners should judge each answer paper and each answer or each examination in a subject as a whole, and should not give a value for fractions of answers which may be right, while the remainder of the same answers may be wrong or even absurd. The answer paper of each candidate should, after due consideration of both good and bad points in the answers, be placed in one of three classes—Good, Fair, and Bad—and marked accordingly by the Examiner.
- (b) No student will be declared to have passed the examination unless he obtains the classes of 3 good papers and 2 fair papers in the two subjects—English and Mathematics (i.e., it may be English 2 Fair and Mathematics 3 Good, or English 3 Good and Mathematics 2 Fair) in addition to passing as required in the following rules:—
- (c) To pass the full examination and to obtain the certificate of having passed fully the Commercial Examination of the Presidency College in the papers or examinations in the other subjects 3 to 6, three papers only may be classed as belonging to the bad class and the remainder must be either Fair or Good. Of these one must be in Book-keeping, Shorthand or Typewriting, and this will be specified in the certificate.
- (d) If a student passes as required under (b) in English and Mathematics and submits papers which are classed as Fair or Good in all the subjects in any two of the groups 3, 4, 5 or 6, he can obtain a certificate to that effect in a form different from the full certificate alluded to in (c). No certificate shall be issued for merely passing in the subjects of English and Mathematics.
- (e) The examination will be under the general direction of the Principal of the Presidency College, who will make all the necessary arrangements and who will consult the Board of Examiners in any case where it is necessary. The Principal will submit the results of the examination as declared by the Board of Examiners to the Director of Public Instruction with a report on the examination and with any reports or suggestions as to any suggested improvements of the arrangements or examination which may be made by the Examiners.
- (f) Candidates for the examination must send in their names to the Principal of the Presidency College on or before 15th March 1905, accompanied by a fee of Rs. 5, which will not in any case be refunded.
- (g) The question papers must be sent to the Principal of the Presidency College in double sealed covers on or before 30th March 1905. The answer papers should be sent direct to the Examiners under double sealed covers.
- (h) The papers set by the Examiners should be such as can reasonably be expected to be answered by the candidates within the time allotted for the examination.
- (i) The questions in each subject shall be fairly distributed over the whole course in that subject.
- (j) Candidates should be warned that if the answer papers are not legibly and neatly written or prepared, they will not be examined, and Examiners are requested either to reject or class as Bad papers which show carelessness or slovenliness or really bad work.

D. B. HORN. Secy. to the Goot. of Bengal.

GENERAL CONDITIONS.

1. The revenue administration of the Dhaka Canal is vested in the Superintending Engineer of the Gandak Circle. The Divisional Canal Officer is responsible for maintaining the canal in an efficient condition, for the distribution of water to the lessees, and for the closing of the outlets in rotation when required; he is further responsible for the assessment of water-rates.

The Collector of the district is responsible for the collection of water-rates.

3. Except as provided in the Act and in these rules, no appeal shall lie from any order passed by a Canal Officer, but the Subdivisional Canal Officer shall modify any order passed by him in accordance with the order of the Divisional Canal Officer, and the Subdivisional Canal Officer or Divisional Canal Officer shall modify any order passed by him in accordance with the orders of the Superintending Canal Officer, who shall exercise a general control over the proceedings of all Canal Officers.

In appeals to the Collector under section 91 of the Act other than those especially provided for in rule 14, the Collector may require the Superintending Engineer to state his

opinion in writing, which shall form part of the record of the proceedings of the case.

ON BLOCKS.

The Divisional Canal Officer shall map out the irrigable area into blocks demarcated by suitable boundaries, and in order to equalise the area to be dealt with each year, shall determine the date of expiry of the leases in each block, so that as far as practicable onefifth of the total area usually irrigated may fall out of lease every year.

6. Each block, determined as above, shall be numbered and marked on the maps to be

- Villages which apply for a lease less than five years in advance of the date of expiry fixed under rule 5 will only be granted leases for the remaining years of the term fixed for the block in which they are situated, so that all the leases within the same block may expire on the same date. These leases will be granted under the same conditions as 5-year leases.

The Divisional Canal Officer shall issue permits for long leases to the lessees through

the Subdivisional Canal Officer.

When water is urgently required, the Subdivisional Canal Officer may grant a season lease which will be cancelled if the long lease is subsequently concluded. The Subdivisional

D. B. HORN, Secy. to the Govt. of Bengal.

GENERAL CONDITIONS.

1. The revenue administration of the Teur (Madhuban) Canal is vested in the Super-intending Engineer of the Gandak Circle. The Divisional Canal Officer is responsible for maintaining the canal in an efficient condition, for the distribution of water to the lessees, and for the closing of the outlets in rotation when required; he is further responsible for the assessment of water-rates.

The Collector of the district is responsible for the collection of water-rates.

Except as provided in the Act and in these rules, no appeal shall lie from any order 3. passed by a Canal Officer, but the Subdivisional Canal Officer shall modify any order passed by him in accordance with the order of the Divisional Canal Officer, and the Subdivisional Canal Officer or Divisional Canal Officer shall modify any order passed by him in accordance with the orders of the Superintending Canal Officer, who shall exercise a general control over the proceedings of all Canal Officers.

4. In appeals to the Collector under section 91 of the Act other than those especially provided for in rule 14, the Collector may require the Superintending Engineer to state his opinion in writing, which shall form part of the record of the proceedings of the case.

ON BLOCKS.

The Divisional Canal Officer shall map out the irrigable area into blocks demarcated by suitable boundaries, and in order to equalise the area to be dealt with each year, shall determine the date of expiry of the leases in each block, so that as far as practicable one-fifth of the total area usually irrigated may fall out of lease every year.

Each block, determined as above, shall be numbered and marked on the maps to be maintained by the Divisional Canal Officer, and shall also be recorded with its irrigable area

in the registers to be kept by him.

ON APPLICATIONS.

- 7. Any person who requires a lease for water must apply to
 - (a) the Sectional Officer, or
 - (b) the Subdivisional Canal Officer.

These applications must be made in writing and may be on plain paper.

The person receiving them shall enter on the back any further data required.

ON LEASES AND PERMITS.

- 8. Ordinarily 5-year leases may be granted for the whole irrigable area of a block, or a definite part of a block, under the following conditions:—
 - (i) No lease for less than 10 acres shall be granted.

(ii) No lease shall be granted when the water must cross unleased lands, unless a suitable village channel exists.

9. Villages which apply for a lease less than five years in advance of the date of expiry fixed under rule 5 will only be granted leases for the remaining years of the term fixed for the block in which they are situated, so that all the leases within the same block may expire on the same date. These leases will be granted under the same conditions as 5-year leases.

10 The Divisional Canal Officer shall issue permits for long leases to the lessees through the Subdivisional Canal Officer.

When water is urgently required, the Subdivisional Canal Officer may grant a season lease which will be cancelled if the long lease is subsequently concluded. The Subdivisional Canal Officer may also issue season leases under rule 13 (111 and 1V).

When a lease is granted an agreement shall be taken in forms given in Appendices I and III, and a "permit" shall be given to the lessee or lessees in the forms given in Appendices

II and IV.

11. Water for filling tanks may be supplied when available for cash paid in advance; the water taken into the tank may be used for irrigation or any other purpose (Forms of application and permit are given in Appendices V and VI).

12. Water may be supplied by measurement through a permanent outlet, when the

working level of the water in the distributary can be kept fairly constant.

ON WATER-RATES.

The Divisional Canal Officer may disallow this free irrigation, and recover the rates, in whole or in part, from the jait raiyat or gumashta or other representative, if the assistance, specified in rule 22, bas not been efficiently rendered to the satisfaction of the local officers. The reasons for such disallowance are to be recorded in the list of cultivators' representatives maintained by the Subdivisional Canal Officer.

ON UNAUTHORISED IRRIGATION.

24. For the unauthorised use of canal water a rate of Rs. 5 per acre shall be charged:

Any member should be eligible for reappointment at the end of that period at the discretion of the appointing authority. A member should be appointed whenever a vacancy occurs.

- 10. The notice should set forth the business to be transacted at the meeting, and no business other than that so stated should be transacted, except with the consent of all the members present. - 12. Under the directions of the Committee, the Secretary should carry on correspondence with the proper authorities on behalf of the Committee, and be in charge of all papers belonging to the Committee.
- 13. The Secretary shall keep a record of the proceedings of each meeting and submit it to the next meeting for confirmation. Such proceedings and all work done by a Committee shall be duly recorded in a book kept for the purpose, which should be open for inspection by all inspecting officers of the Education Department.

STATE TECHNICAL SCHOLARSHIPS FOR NATIVES OF BENGAL

With a view to provide for natives of India the higher technical education which may qualify them to assist in promoting the improvement of existing native industries, and the development of new industries wherever this may be possible, the Government of India are ready, as an experimental measure, to give a small number of Technical scholarships, if promising candidates, well qualified in some particular branch of industry, present themselves. The outlines of the scheme are sketched-out below.

2. Value of the scholarships.—The value of the scholarships has been fixed at £150 a year, in addition to fees payable to the institutions where the scholars will study and

travelling expenses; but Government will consider proposals for increasing it in special cases.

3. Places and periods of tenure - Each scholarship is tenable for an average period of

two years, which may be increased or reduced in special cases.

4. The scholarships may be held in Great Britain, on the Continent of Europe, or in America, and are payable from the date of the scholar's arrival in the country which he may

select for study.

5. Subjects of study.—Law, Medicine, Forestry, Veterinary Science, Agriculture and Engineering have been excluded from the scope of the present proposal. The scholarships are in the first instance proposed to be used for the encouragement of the mining industry in Bengal, but any other branch of industry can similarly be helped and fostered. Industries in which native capital and enterprise are engaged, or likely to be engaged, and in which the trained scholar might, on return to his country, find scope for his skill and ability, will be

particularly appropriate for selection.

6. Conditions of award.—The scholarships are tenable by persons who are natives of India within the meaning of section 6 of the Statute, 33 Vic., Cap. 3. A competent knowledge of English, or the language of any other country in which the candidate proposes to work and study is essential to enable him to take full advantage of the course of study.

7. In the matter of selection of scholars, Government will be swided by a study.

In the matter of selection of scholars, Government will be guided by considerations of the candidate's capacity, intelligence, particular interest in and connection with the industry selected, and the assurance that he will continue to devote himself to the subject on his return to India. These being matters which cannot be decided by the holding of degrees obtained, by examination, or by competition, no special examination is considered necessary and none will be held. But a scholar before nomination should have received the best technical education available in the Province, in the particular industry which he has to study, and no candidate will be considered qualified unless he has displayed an aptitude for technical study.

8. No age-limit has been fixed. But it may be fixed by Government in certain cases.

9. The candidates for scholarships should submit certificates attesting (a) their moral character. (b) knowledges of the largeness of the country in which they elect to study and (c)

character, (b) knowledge of the language of the country in which they elect to study, and (c) physical capacity, from recognized persons who may be considered fit to certify to these facts. These certificates will not be returned.

10. The scholars in England or elsewhere, as the case may be, will be under the control and supervision of the Secretary of State. The conditions under which they will hold the scholarships will be similar to those laid down for Government of India scholarships, and power will be retained to cancel a scholarship and to send the scholar back to India if his progress and conduct be not satisfactory.

11. Returned scholars.—No scholar will be bound on his return to India by any engagement to serve Government or a private firm, and the choice of his career will be in the first instance determined, on his return from Europe by his own inclination. Should any occasion: arise, Government will be glad to turn his ability and increased knowledge to account as teacher in an Industrial school or in other capacities connected with the improvement of

local industies

12. Applications from natives of Bengal for such scholarships for the development of the mining industry, in the first instance, should be made direct to the Director of Public Instruction, Bengal, on or before the 1st May 1905. Full particulars should be furnished as to the past educational experience, training and future requirements of each applicant for a scholarship. Applicants should also indicate, if possible, what they wish to work at in their future careers on return to India. The scholarships will be awarded by the Government of India on the recommendation of the Local Government.

The Form, Exn. 3, properly filled in, together with the candidate's Indeutures of Apprenticeship, testimonials, and discharges, must be lodged with the Port Officer not later than the day before the day of examination. As such testi-monials may have to be verified before the candidate can be examined, it is desirable that they should be handed in together with the Form Exn. 3, as early as possible.

The Port Officer should be particularly careful to ascertain that there are no gaps in the candidate's service which are not properly accounted for before he is allowed up for examination.

3. In cases where the services of a candidate require verification, or where he is in doubt whether his service complies cial cares. with the regulatious, and wishes to submit his case for special consideration, all certificates, discharges and testimonials, together with the form of application properly filled in, should be submitted to the Port Officer, who will either deal with the case or transmit it to the Government for decision.

No time spent in clerical work will be allowed to count.

7. In cases where a testimonial from the Chief Engineer, or from the Master, is for any sufficient reason not obtainable, one may be submitted from the Superintending Engineer in place of that of the Chief Engineer, and one from the Managing Owner or Secretary or Chairman of a large Company in place of that of the Master, but in every such instance the testimonial must declare that the facts stated are in accordance with the reports made by the Chief Engineer or the Master, as the case may be, or else that the facts are within the writer's personal knowledge.

defects

When a candidate is observed to be hard of hearing, or is labouring under any other obvious physical defect, the signatories of his testimonials are required to mention that defect specifically, and to state whether it in any way interfered with the efficiency of the candidate as an engineer When these modified testimonials are such as on watch. to completely satisfy the examiner that the defect is not such as to interfere with the efficient discharge of the applicant's duties as engineer, the examination is proceeded with; otherwise the case is referred to the Government. The candidate's testimonials and other papers will be returned to him when the examination is finished. It is therefore important that the port at which the Certificate is to be issued should be the same on both the Form Exn. 16 and the form of application Exn. 3. Examiners will require all candidates to fill up a form, Exn. 15b, and they will forward it to the Port Officer, together with the report of the examination.

The questions for both classes of engineers will be taken from the same series of Elementary Questions; and candidates for first class certificates are expected to show their superiority by giving answers more complete than those of the other candidates.

58. Having regard to the fact that when the verbal examination is held, the candidate has already passed in arithmetic, and, if a first class candidate, in drawing, and has also written answers to the elementary questions, the Examiners will deal with practical, rather than theoretical questions in this division of the examination; and no candidate should be failed without having been well cross-questioned on the points for which failure takes place.

Moreover in cases where the Examiner approves of the elementary paper but fails the candidate for lack of practical knowledge or for elementary, a written account of the points failed in must be forwarded to the Port Officer with

the elementary papers and the report Exn. 15.

The elementary questions to be answered on Form Exn. 15b* are good starting points in viva voce examinations. With the candidates' written answers before the Examiner, the same question can be put in a way requiring an answer in another form. Each question may be developed into several according to the circumstances of the case, e.g.-

What is made of? Of what parts does it consist ?

What is its use?

- What attention does it require at sea? What attention does it require in port?
- When it becomes defective, what is it that principally goes wrong with it? How is it repaired?

It is considered of great importance that engineers presenting themselves for examination should have an extensive knowledge of the particulars of actual casualties which have occurred at sea and be able to state how these might have been prevented, and how remedied. Sometimes an engineer presents himself who has had no personal experience of any defects, and who can tell nothing about casualties to machinery which have occurred in the experience of others: such candidates should be closely questioned as to their knowledge of boiler and engine construction and the repairs of same.

The management of engines and boilers at sea, the duties of the engineer on watch, the work to be done to the engines, boilers, and auxiliary machinery in port, and the periodical examinations of the working parts, form part of

the riva voce examination.
